MEMORANDUM FOR: Larry Gershwin  
NIO for Strategic Programs

SUBJECT : Strategic Net Assessment

You will recall the discussion with the DCI on Wednesday about Fred Ikle's comment at the Tuesday SACG meeting re "agreement" to revisit the strategic net assessment done with DoD. The DCI said he would talk with Fred about this. He has done so. Fred told the DCI that what he had in mind was not a major re-write, but rather a simple updating of the existing joint assessment. He implied this was something you have discussed with Andy Marshall.

The DCI asks that you touch base with Andy and ascertain just what he has in mind (in terms of both scope and the product's use). Then, after assessing the effect on resources that would be required (opportunity cost), please advise whether we can and should proceed with this effort.
